Work Experience

Royal Bank of Canada (RBC), Toronto

Sep 2025 - Dec 2025

Software Developer Intern

- Developed and contributed to internal banking applications in an agile team environment.
- Built frontend features using Angular and React while ensuring performance and usability improvements.
- Collaborated with product managers and UX teams to translate requirements into technical solutions.
- Participated in code reviews, sprint planning, and release cycles.

Technical Systems Analyst Co-op

May 2024 - Aug 2024

- Supported enterprise banking systems through analysis, documentation, and troubleshooting.
- Worked with cross-functional teams to translate business requirements into technical specifications.
- Assisted in system testing and improving workflow efficiency across development cycles.

CGI Consulting, Halifax

Jan 2025 - Apr 2025

Business Analyst Co-op

- Gathered and documented business requirements for client-facing systems.
- Created process maps, user stories, and technical documentation for development teams.
- Supported solution design discussions and stakeholder communication.

Dalhousie Faculty of Computer Science

Sep 2024 - Present

Student Ambassador / Student Leader (Comms & Marketing)

- Represent Faculty of Computer Science in outreach and student engagement initiatives.
- Lead communications and marketing efforts for events, workshops, and faculty programs.
- Support student community-building and engagement activities across campus.

CS Tutor, Learning Centre

Sep 2024 - Present

- Provide one-on-one academic support to computer science students.
- Help students understand programming fundamentals and problem-solving techniques.

Education

Dalhousie University, Halifax, Canada

Expected Aug 2026

Bachelor of Applied Computer Science, Minor in Management

GPA: 4.0/4.3

Dean's List (multiple semesters) | Sexton Scholar

Project Work

- **Portfolio Website** Personal portfolio built with Vite, Tailwind CSS, and animated UI.
- **Day in the Life Simulator** Interactive React storytelling experience where users make choices to simulate a day in my life.
- **Shruti AI Chatbot** AI chatbot that mimics my tone and personality using Open AI API and a simple chat interface.
- **First-Year Portfolio:** HTML/CSS/JS portfolio built during first-year coursework.
- **Musician Website:** Website showcasing performances for a classical Indian musician (my father).
